

Real Estate Virtual Assistant

Working solely as a real estate virtual assistant for the past 8 years, I have the direct real estate market knowledge that I know is very hard to find. I love my work and put 110% into each and everyone of my client's businesses.

Specializing in real estate over the years has proven to be a passion for me. Although I would never survive as a real estate agent out selling homes (since my comfort zone is behind the scenes, not in the frontlines!), the love for marketing, managing and delivering highly professional and proven real estate services to both brokers and realtors alike is my driving force.
